22578VIC COURSE IN FIRST AID MANAGEMENT OF ANAPHYLAXIS

SHE Group (Safety Health & Environment) was initially established in 1997. We are committed to collaborating positively with our clients and students to instil self-confidence, skills, and knowledge. SHE Group (Safety Health & Environment) provides high-quality work health and safety (WHS) training and consulting services in consultation with Australian businesses to assist with WHS compliance and mandatory training obligations in the workplace. SHE Group is a third-party provider delivering nationally recognised training and assessment in WHS and First Aid courses on behalf of Allens Training Pty Ltd RTO 90909.

This course has been designed for individuals who are required to provide first aid to a person experiencing anaphylaxis until the arrival of medical assistance. This means being able to identify the triggers, signs, and symptoms of allergic reactions and anaphylaxis, and follow the standard first aid procedures to administer adrenaline using an adrenaline autoinjector to someone suffering anaphylaxis in the workplace or in the community.

Satisfactorily completing all requirements of this course provides the student with the ability to develop risk management and risk minimisation strategies for individuals diagnosed at risk of anaphylaxis in the workplace. This includes the development and implementation of pre-emergency risk assessment/management and the development and implementation of individual anaphylaxis management plans.

This course provides nationally recognised training for workers, or nominated workplace first aiders, from any industry sector and addresses the provision of care to adults and/or children in the workplace who are diagnosed as being at risk of anaphylaxis or displaying signs/symptoms of anaphylaxis.

**** Some industries require additional training, such as childcare workers, schoolteachers, and other related industries.**

Unit Delivered

The following unit will be awarded to successful participants in this course.

- 22578VIC - Course in First Aid Management of Anaphylaxis
- VU23090 - Provide first aid management of anaphylaxis
- VU23091 - Develop risk minimisation and risk management strategies for anaphylaxis

ENTRY REQUIREMENTS

As a minimum, entrants to the course must have literacy and numeracy competencies equivalent to the Australian Core Skills Framework Level 3.

An example of an ACSF Level 3 competency is reading and comprehending the ASCIA Action Plan for Anaphylaxis, using, and responding to communication techniques to request appropriate emergency assistance at the scene of a First Aid incident and writing skills to complete incident reports.

Physical fitness to be able to meet the demands of practical demonstration skills.

Pre-course study:

Students may be required to undertake online pre-course work prior to attending the face-to-face session, depending on the course delivery mode.

Online study:

Students must have access to a computer, smartphone, tablet, or other electronic devices with access to the internet to complete the online / pre-course studies.

COURSE DURATION

Course durations can vary for multiple reasons, so the durations below are the **minimum possible amount**.

Refresher Face to Face contact time of at least	2 Hours
Blended Face to Face contact time of at least	2 Hours
Face-to-Face Face to Face contact time of at least	3 Hours
Online with face-to-face assessment Face to Face contact time of at least	15 Mins

ASSESSMENT REQUIREMENTS

Individuals undertaking this course will be expected to complete both written and practical assessment tasks. Assessments conducted during a face-to-face training session(s) include

Assessment Activities

- Provide first aid treatment for anaphylaxis and administer adrenaline using a trainer autoinjector device on a mock casualty.
- Provide first aid treatment for mild to moderate allergy, which progresses to anaphylaxis and administers adrenaline using a trainer autoinjector device on a mock casualty.

Documentation:

- Complete a First aid/Incident report form
- Complete a Risk Assessment
- Complete an Individual Anaphylaxis Management and Communication Plan.
